Nasilloyev Mirshod
QA/Backend Developer(GO)

Uzbekistan, Tashkent. +998(90) 712 84 72.   Github. LinkedIn. Telegram. Website

CAREER SUMMARY

ABOUT ME: To be honest, IT came into my life in recent 2 or 3 years. One of the reasons is my curiosity and creativity. Seeking to leverage solid technical skills and abilities to advance my career as young developer. Highly organized, self-motivated and proficient with computers. I like to work in a team and I want to respect each other.

PROFESSIONAL EXPERIENCE

Cargo MAX LLC (Manual tester-Intern)   Sep 2023 - Nov 2023
Participated in testing the ELD platform for American truck drivers. Executed regression and functional tests for new features and communicated issues through Telegram. Gained foundational experience in QA methodologies.

TrastPay (Manual tester- Intern)   Nov 2023 - Feb 2024
Performed manual testing on TrastPay banking app, focusing on the P2P section. Reported and tracked bugs in Jira, collaborated with developers to ensure fixes.

Musait Technologies — QA & Backend Developer (GO)   May 2024 – May 2025
Worked on manual testing and backend development for management, warehouse, and finance automation systems. Developed a Telegram HR bot using Go, with Docker containerization and CI/CD pipelines. Integrated BoltDB and Google Sheets API to automate HR workflows and data management.

Freelance — Backend Developer (GO)   Apr 2025 – Oct 2025
Developed the ASR ERP System for a client in Tajikistan, handling the entire backend lifecycle from architecture to deployment. Built a monolithic backend using Go, structured into handler ➔ dto ➔ service ➔ db layers. Implemented core business logic for employee management and finance modules. Used Gin for HTTP handling, PostgreSQL for data storage, and SQLC for type-safe query generation. Deployed and maintained the system via TestFlight and Google Play, where it's actively used by company owners and staff to manage daily operations.

Bellissimo Pizza — QA Engineer   Jun 2025 – Present
Responsible for testing the mobile applications of the company and internal business systems. Actively using Maestro, Playwright, Postman, JMeter, Qase IO, IIKO Web, and Azure Boards for test automation, API validation, regression coverage, and reporting. Collaborating closely with cross-functional teams to ensure stable, high-quality product releases across all platforms.

EDUCATION & CERTIFICATIONS

- **Bachelor of Railway Engineering.**   Aug 2016 - June 2020
Majors: Land Transportation systems

- **Najot Talim Course Centre.**   Sep 2023 - Feb 2024
Course: Quality Assurance

- **Certification**
QA: myCERT
